

Anders Ericson

An experienced executive with over two decades in industrial operations, Andres Ericson is responsible for Artifex Systems AB in Sweden. Anders has proven leadership in managing multi-plant regions, driving lean manufacturing, and delivering consistent financial growth in complex, low-margin environments. He was a former Managing Director at IMI Hydronic and Brose Sweden, with deep expertise in logistics, product development, and organizational restructuring. He also holds degrees in Mechanical Engineering and Quality Management, with international training at Toyota in Japan. Anders

focus is building high-performing teams, implementing strategic improvements, and securing customer satisfaction through operational excellence and continuous improvement initiatives.
