

## **Johan Malmberg**

Johan Malmberg is on an interim basis responsible for the IT functions at Artifex Systems AB, including responsibility for production systems, infrastructure, and network operations. He has over 30 years of experience in the automotive industry, including 25 years specializing in IT. Since 2000, Johan has led numerous IT projects, including the development of several greenfield plants. He brings deep expertise in industrial IT and is recognized for his hands-on leadership in building robust, scalable systems that support operational excellence.
