

## **Mike Clowry**

### **Chief Technology Officer**

Mike Clowry is the Chief Technical Officer at Artifex, bringing with him nearly 30 years of extensive experience in the automotive sector. Before joining Artifex, Mike served as the Senior Vice President for Program Management, Engineering, and Corporate Quality at IAC Group. In his current role, he oversees new product development, implementation, R&D, and other associated activities.

Throughout his career, Mike has specialized in engineering and program delivery for interior trim at several first-tier companies. He has also held significant positions in Business Unit management and New Customer Development. His passion for

engineering and his commitment to solving product and process challenges is his driving force. Mike also believes that talented teams, operating within an excellent framework that collaborates intensively, are essential to delivering great results.

Mike is dedicated to ensuring that engineering and program management are seamlessly integrated into business operations, guaranteeing that technical and broader business requirements are met. He holds a Bachelor's degree in Engineering from Coventry University and a Master of Business Administration from Aston Business School.
