

**RAVI CHIDAMBAR**  
Head – EV, Business Development & Technology and  
Executive Director – Tata Toyo Radiator

Ravi is currently heading the Business Development, Technology & Electric Vehicle Business Vertical of Tata AutoComp Systems Ltd.

Ravi is a part of the Senior Management Team of Tata AutoComp Systems Ltd. and is on the Board of Tata Toyo Radiator Ltd. as Executive Director & Tata AutoComp GY Batteries Ltd.(Lead Acid Battery maker), Tata Katcon(Exhaust Systems), Tata Auto Comp Green Energy Solutions ( Li-ion Battery Pack) , Tata AutoComp Prestolite Pvt Ltd.( EV traction motors)

In his 23 years of Association with Tata Toyo Radiator Ltd. and Tata AutoComp Systems Ltd., Ravi has been a part of the initial startup team and headed the Engineering vertical of Tata Toyo Radiator Ltd. He was instrumental in setting up first Research & Development center outside Japan in India by their Joint Venture Partner T.RAD Limited, Tokyo, Japan.

Ravi has also led the technology team for the emerging Electric Vehicle future with new product development from Engine System and Cooling verticals for OEM's in the country.

Tata Toyo Radiator Ltd. has been positioned as a complete automotive heat exchange and cooling solution provider which has helped it to maintain leadership position in the chosen sectors amidst stiff domestic and global competition.

Ravi began his career at Thermax India Limited, Pune, India after having completed his M. Tech (Mechanical) from IIT, Mumbai in 1986.
